Class Name	Description
"AccuBuild Cocktail Reception"	Unwind with a few drinks and canapés and network with likeminded businessmen and women at the beautiful setting of La Vista Terrace, which is located a short walk from the hotel, and is a picturesque setting overlooking The Alamo. Live music, good company and fantastic views... A night not to be missed!
"Explore San Antonio"	The AccuBuild team invite you to explore the local area by taking a river cruise around the famous San Antonio Riverwalk, followed by a few hours at a popular nightlife spot.
AccuBuild Analytics (The Cube)	Actionable information is what drives your business. AccuBuild Analytics gives you the information you need to make better business decisions. Whether you are trying to analyze job profitability, productivity, or company performance, The Cube makes this process a breeze by eliminating the need to create custom reports and quickly putting actionable information at your fingertips
AccuBuild Cloud	Any device, anywhere, anytime. Come learn how contractors are using AccuBuild's cloud technology to drive efficiency, increase software performance and extend operations to any internet connected location / device.
AccuBuild Mobile 3.0	Mobile 3.0 is out and it is packed with new features and enhancements - including a faster crew based timecard entry screen with start, stop and lunch time tracking. If you are still processing payroll from paper timecards or manually entering payroll data you need to check out this session!
Advanced Payroll	With Union Reporting, Certified Payroll and Multiple States / Agencies to report to Construction Payroll can be very complicated. Learn how AccuBuild's payroll system can help automate many of the burdensome tasks today's payroll departments are facing.
Basic Accounting	If you are new to the AccuBuild system or have new additions to your team - Basic Accounting is the best place to learn all about data entry, reporting and basic reconciliation of AP, AR, Payroll, Job Cost, and GL.
Document Management & Invoice Routing	Managing business documents and project documentation effectively is key to running a successful construction business. File servers and shared drives are no longer a sufficient solution for today's contractor. Learn how store, share and route documents for approval with minimal effort in a secure integrated environment using AccuBuild's Document Management System.
Online Sub Payments	Managing subcontractors and their payments is a big challenge. From entering and approving subcontractor invoices to tracking liens, insurance certificates, certified payrolls are just some of the challenges of managing subcontractors. In the course we will showcase one of our latest tools to automate subcontract management. AccuBuild's Online Sub Payment System automates the data entry, communication and approval of the entire subcontractor payment life cycle via our integrated online subcontractor web portal. This session will be co-taught with AccuBuild team members and an AccuBuild Customer who is currently experiencing the benefits of using AccuBuild's Sub Online Payment System
Project Management	Uniting Operations and Financial departments is what AccuBuild's Project Management is all about. Learn how AccuBuild's Integrated Project Management system can have a positive impact on Cash Flow, Job Profitability, and drive better business processes by tracking RFIs, Change Orders, Daily Field Reports, Submittals and Job Documents in One System.
Report Design	AccuBuild has a very powerful integrated report writing system for tailoring reports and forms to meet your specific needs. Come learn how to modify existing reports and forms and create new reports from scratch. This course is appropriate for individuals who want to learn report design or those who are interested in learning more about the tailoring capabilities of the AccuBuild system
Tailored Solutions	One size fits One. Did you know that AccuBuild actively seeks to help its clients by providing tailored solutions? We believe that most out of the box solutions will fit 80% of your needs but what about the other 20%? Come learn how AccuBuild is actively working with real live clients to solve their business challenges by creating tailored solutions. Case Studies include: Mobile, Production Units, Dispatch, Online SubPayment System, Custom Mobile Stored Procedures and Posting Process Framework Also, Flexible Software Framework such as: MAR Custom Reports/Forms, Custom Mobile Stored Procedures, Custom Program Event Procedures, Workflow & Alerts and Custom Cube Design

Workflow & Alerts	Have you ever wanted be notified when something happens in your business? For example: Is a job is over budget? Has a subcontractor's insurance expired? Or maybe is an employee's driver's license about to expire? Workflow and alerts is a powerful tool with unlimited possibilities for creating automatic alerts via email, text message, http post, or twitter
Year End Processing	A session designed specifically for accountants, who wish to learn more about Month End Closeout Process, Calendar Year End Processing, Fiscal Year End Processing and Fiscal Year Reporting
